CREATIVE BIOMART®
Assay Kit

Caspase-3 fluorometric detection Kit

Product Information

Cat.No.	Kit-0166

Product Overview

Higher throughput-measure caspase-3 activity in up 37 samples in duplicateEfficient-low volume samples needed per wellFlexible-kinetic or end-point assay option

Size

96 wells

Description

The Caspase-3 fluorometric detection kit provides a sensitive, fast, and reliable method for measuring caspase-3 activity in up to 37 samples in duplicate in just 3 hours.

Applications

Fluorescence microscopy. For the fluorometric measurement of Caspase-3 cell lysates and buffers from any species.

Storage

Store all components at +4°C, except standard at -20°C.

Kit Components

White Microtiter plate, Standard, DTT, AMC Calibrator, Reaction buffer concentrate, Fluorometric Substrate concentrate, Stop solution 2.
