CREATIVE BIOMART®
Assay Kit

Avian Influenza Virus Antibody Detection Kit (pan?subtype)

Product Information

Product Overview

Virus Antibody Detection Kits

Description

Designed to detect antibodies against all subtypes of Avian Influenza Virus (AIV).

Size

48t/96t

Applications

- Comprehensive avian influenza screening
- Routine flock health monitoring
- Post-vaccination immune assessment

Features & Benefits

- Detects multiple AIV subtypes in one assay
- High sensitivity and specificity
- Compatible with a wide variety of poultry species
- Simplifies AIV surveillance efforts
