CREATIVE BIOMART®
Assay Kit

Florfenicol Residue Detection Kit

Product Information

Product Overview

Drug / Contaminant Residue Detection Kits

Description

Detects residues of Florfenicol, a broad-spectrum antibiotic, in animal-derived foods.

Size

48t/96t

Applications

- Screening of Florfenicol in meat, fish, eggs, and milk
- Routine safety testing in food processing
- Veterinary drug residue monitoring

Features & Benefits

- High specificity for Florfenicol and its metabolites
- Easy-to-use format for rapid testing
- Minimal sample preparation required
- Ensures regulatory compliance for antibiotic use
