CREATIVE BIOMART®
Assay Kit

ALT Assay Kit

Product Information

Cat.No. Kit-0083

Product Overview

ALT Assay Kit is designed for the measurement of ALT.

Description

Alanine aminotransferase (ALT), also called serum glutamate pyruvic transaminase (GPT), is a member of transferase family. It catalyzes the reversible transfer of an a-amino group between alanine and glutamate, and is an important enzyme in amino acid metabolism. ALT is found mainly in liver and small amount in heart, muscle, and kidneys. In healthy subjects, serum ALT levels are low. However, when cells are damaged, such as acute and chronic hepatitis, obstructive jaundice, carcinoma of liver, myocardial infarction, ALT may leak into the blood stream and the ALT levels are significantly elevated. Therefore, determination of serum ALT level has great clinical and diagnostic significance.

Usage

For research use only (RUO)

Storage

Keep in frozen and avoid light.

Kit Components

Component A: ALT Enzyme Mixture (lyophilized powder) 1 vialComponent B: ALT Assay Buffer 10 mlComponent C: NAD 1 vialComponent D: ALT Positive Control (10 U) 1 vial

Compatible Sample Types

Biological samples
