CREATIVE BIOMART®
Assay Kit

Cell Migration and Invasion Stain Kit (for Transwell)

Product Information

Product Overview

Transwell systems simulate biological barriers in vitro and are widely used for co-culture, chemotaxis, migration, and invasion studies.
This staining kit is specifically designed for Transwell assays and uses crystal violet as the primary staining component to visualize migrated or invaded cells. A destaining solution is included to enable semi-quantitative analysis of migration rate and chemotactic index.

Size

3*20 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
