CREATIVE BIOMART®
Assay Kit

Kit for Saliva Exosomes

Product Information

Cat

Kit-2308

Cat.No. Kit-2308

Product Overview

Exosome isolation from biofluids or cell culture media and FACS analysis of exosome markers.

Applications

Kits ensure exosome isolation and exosome marker characterization via FACS, Exosome comprehensive profiling, User friendly and suitable for multiple marker analyses, No initial exosome purification required, Lyophilized Exosome Standards for positive control included.

Storage

4°C

Shipping

Gel Pack

Size

20 reactions

Kit Components

ExoPure Reagent; FACS-beads; Primary Antibody; Secondary Antibody; Sample Buffer (1X); Exosome Standards (100 µg)

Target Species

Saliva

Detection method FACS Analysis

Features & Benefits

Exosome isolation and exosome marker characterization via FACS
