CREATIVE BIOMART®
Assay Kit

Bovine/Small Ruminant FMDV Serotypes A and O Antibody Detection Kit

Product Information

Product Overview

Virus Antibody Detection Kits

Description

Designed for the simultaneous detection of antibodies against Foot-and-Mouth Disease Virus (FMDV) Serotypes A and O in bovine and small ruminant samples.

Size

48t/96t

Applications

- Monitoring FMDV exposure in cattle, sheep, and goats
- Post-vaccination antibody evaluation
- Regional disease control initiatives

Features & Benefits

- Dual-serotype detection in one test
- Suitable for both bovine and small ruminant serum
- High-throughput compatibility
- Time-saving and cost-effective for mixed livestock
