CREATIVE BIOMART®
Assay Kit

Avian Influenza Virus H5 Antibody Detection Kit

Product Information

Product Overview

Virus Antibody Detection Kits

Description

Detects antibodies specific to Avian Influenza Virus (AIV) H5 subtype in poultry serum.

Size

48t/96t

Applications

- H5 avian influenza outbreak monitoring
- Vaccine efficacy assessment in poultry
- Routine surveillance in avian populations

Features & Benefits

- High specificity to H5 subtype
- Rapid results for quick decision-making
- Ideal for large-scale poultry testing
- Compatible with various bird species
