CREATIVE BIOMART®
Assay Kit

Diff-Quick Stain Kit (No Fixative)

Product Information

Product Overview

Diff-Quik staining is a rapid modification of Wright staining based on Romanowsky principles. The staining results are comparable to Wright stain but can be completed within 90 seconds.
This kit contains no fixative for convenient transport and is suitable for blood smears, bone marrow smears, vaginal secretions, and exfoliative cytology. It is ideal for batch staining and produces clean backgrounds without precipitates.

Size

8*125 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
