CREATIVE BIOMART®
Assay Kit

Fast Giemsa Stain Kit

Product Information

Product Overview

This kit is designed for staining blood and bone marrow cells and improves upon traditional Giemsa staining by providing clearer structural detail and stronger cytoplasmic and neutral granule staining. Giemsa stain is widely used for protozoa, blood smears, cytology, bacteria, and chromosome banding.
Staining results: nuclei appear purplish-red, cytoplasm appears purplish-blue, and mucus appears pink or light blue.

Size

3*30 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
