CREATIVE BIOMART®
Assay Kit

Food Nitrite Content Assay Kit

Product Information

Product Overview

The Food Nitrite Content Assay Kit is designed for the quantitative determination of nitrite levels in food samples. Based on a specific colorimetric reaction, nitrite forms a stable chromogenic compound that can be measured spectrophotometrically. The kit offers good sensitivity and reproducibility, making it suitable for food safety testing, quality control, and regulatory compliance analysis.

Size

50t/48s

Storage

Store at 2–8 °C. Shelf life: 6 months.

Detection method Spectrophotometer
