CREATIVE BIOMART®
Assay Kit

Nissl Stain Kit (Cresyl Violet Method)

Product Information

Product Overview

Nissl bodies are basophilic granules in neuronal cytoplasm composed of rough endoplasmic reticulum and ribosomes. They are stained blue-purple by basic dyes and vary in distribution and morphology among neurons. Nissl staining effectively demonstrates neuronal structure and pathological changes and is suitable for paraffin-embedded tissue sections.

Size

2*100 mL

Storage

Store at room temperature, protected from light. Shelf life: 6 months.
