CREATIVE BIOMART®
Assay Kit

Pollak's Trichrome Stain Kit

Product Information

Product Overview

Masson's trichrome is a classic connective tissue staining technique that differentiates collagen fibers, muscle fibers, and nuclei based on molecular size and tissue permeability.
Pollak trichrome is a modified multicolor connective tissue stain using mordants and accelerators to enhance differential staining.

Size

4*50 mL

Storage

Store at room temperature, protected from light. Shelf life: 6 months.
