Assay Kit

p53 Translocation Assay Kit (Cell-Based)

Product Information

Cat.No. Kit-0642

Product Overview

p53 Translocation Assay Kit (Cell-Based) provides a highly specific p53 primary monoclonal antibody together with a DyLight conjugated secondary antibody in a ready-to-use format. (-)-Nutlin-3, a potent inhibitor of Mdm2-p53 interaction which has been shown to cause the activation and translocation of p53 between the cytoplasm and nuclear compartments, is included as a positive control.
