CREATIVE BIOMART®
Assay Kit

Superoxide Anion Scavenging Capacity Assay Kit

Product Information

Product Overview

The Superoxide Anion Scavenging Capacity Assay Kit is designed to evaluate the ability of samples to scavenge superoxide anions (O₂⁺·). Through a colorimetric reaction that reflects superoxide neutralization, this kit allows rapid assessment of antioxidant capacity in biological samples, plant extracts, and functional compounds.

Size

50t/48s

Storage

Store at -20 °C. Shelf life: 6 months.

Detection method Spectrophotometer
