CREATIVE BIOMART®
Assay Kit

Urate Stain Kit (Sternheimer-Malbin Method)

Product Information

Product Overview

Sternheimer–Malbin staining is used for urine sediment examination. After staining, erythrocytes appear pale purple and leukocytes appear orange-red.
This reagent is intended for research use only and is not recommended for clinical diagnostic applications.

Size

50 mL

Storage

Store at 2–8 °C, protected from light. Shelf life: 6 months.
