CREATIVE BIOMART®
Assay Kit

Wright-Giemsa Stain Kit

Product Information

Product Overview

Weigert–Giemsa staining combines the advantages of Wright and Giemsa stains and is mainly used for blood and bone marrow smears. Different cellular components exhibit varying affinities for acidic and basic dyes, resulting in distinct coloration for morphological identification.
This ready-to-use WG staining kit includes staining solution and buffer, offering clear contrast, excellent staining quality, and convenient operation.

Size

2*50 mL

Storage

Store at room temperature, protected from light. Shelf life: 2 years.
