CREATIVE BIOMART®
Assay Kit

Cellulase (CL) Activity Assay Kit

Product Information

Product Overview

The Cellulase (CL) Activity Assay Kit provides a simple and reliable method for measuring cellulase activity in microbial, plant, or industrial enzyme samples. Cellulase catalyzes the hydrolysis of cellulose into reducing sugars, which are quantitatively detected by a colorimetric reaction. This kit is ideal for applications in biomass conversion, fermentation research, and enzyme characterization.

Size

50t/24s

Storage

Store at 2–8 °C. Shelf life: 6 months.

Detection method Spectrophotometer
