CREATIVE BIOMART®
Assay Kit

Mammalian Cell Extraction Kit

Product Information

Cat

Kit-2400

Cat.No. Kit-2400

Product Overview

The Mammalian Cell Extraction Kit provides optimized cell extraction buffer, protease inhibitor cocktail, and DTT for convenient extraction of mammalian proteins from cultured cells and tissue samples, under nondenaturing conditions. Cell lysate prepared using the kit can be used in a variety of applications, such as enzyme activity assays (e.g., caspase activity assays), Western blot analysis, and others. The entire procedure takes less than 20 minutes.

Applications

Applications- Enzyme activity assays (e.g., caspase activity assays), Western blot analysis, and others.

Storage

-20°C

Shipping

Gel Pack

Size

500 assays

Kit Components

Cell Extraction Buffer; Protease Inhibitor Cocktail; DTT (1 M)

Target Species

Mammalian

Features & Benefits

Simple procedure; takes less than 20 minutes; Fast and convenient; The Mammalian Cell Extraction
