CREATIVE BIOMART®
Assay Kit

Japanese Encephalitis Virus (JEV) Antibody Detection Kit

Product Information

Product Overview

Virus Antibody Detection Kits

Description

Detects antibodies to Japanese Encephalitis Virus (JEV) in pigs and other susceptible animals.

Size

48t/96t

Applications

- JEV exposure assessment in pigs
- Surveillance in endemic regions
- Vaccine response monitoring

Features & Benefits

- High specificity for JEV antibodies
- Applicable to multiple species
- Suitable for both clinical and research use
- Useful in outbreak investigations
