CREATIVE BIOMART®
Assay Kit

ABTS Free Radical Scavenging Capacity Assay Kit

Product Information

Product Overview

The ABTS Free Radical Scavenging Capacity Assay Kit is used to evaluate the antioxidant capacity of samples by measuring their ability to quench ABTS⁺ radicals. The decrease in absorbance at a specific wavelength is proportional to radical scavenging activity, enabling rapid and sensitive assessment of antioxidant potential in biological samples, foods, and natural products.

Size

50t/24s

Storage

Store at -20 °C. Shelf life: 6 months.

Detection method Spectrophotometer
