CREATIVE BIOMART®
Assay Kit

Acid-Fast Bacillus (AFB) Stain Kit

Product Information

Product Overview

Acid-fast staining is used for preliminary identification of Mycobacterium species. Due to the lipid-rich cell wall, heating is required to allow carbol fuchsin penetration. Acid-fast organisms resist acid–alcohol decolorization and remain red after counterstaining, while non–acid-fast organisms appear blue.

Size

3*50 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
