CREATIVE BIOMART®
Assay Kit

Acid-Fast Bacillus (AFB) Stain Kit (Auramine O Method)

Product Information

Product Overview

Auramine O fluorescence staining is a cold, non-heating method for acid-fast bacteria. After staining and counterstaining, specimens are examined under a fluorescence microscope equipped with a UV light source.
Acid-fast bacilli fluoresce bright yellow, while background material appears dark yellow. This method allows rapid screening at low magnification.

Size

4*100 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
