CREATIVE BIOMART®
Assay Kit

Fast Papanicolaou Stain Kit

Product Information

Product Overview

This product is an improved, non-toxic, rapid Pap staining kit. Compared with the classical Pap method, which involves complex and time-consuming procedures, this kit simplifies the workflow into three steps and completes staining within 5 minutes. No graded alcohol dehydration or xylene clearing is required, and slides can be directly mounted for preservation.
The kit is primarily used for exfoliative cytology, suitable for epithelial and mesothelial samples, including vaginal smears, cervical smears, leukorrhea, pleural and ascitic fluids, semen, TCT samples, and more.

Size

4*100 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
