CREATIVE BIOMART®
Assay Kit

Glucose-6-Phosphatase Stain Kit (Metal Precipitation Method)

Product Information

Product Overview

Glucose-6-phosphatase is an endoplasmic reticulum marker enzyme essential for glucose homeostasis. This method captures released phosphate with heavy metal ions to visualize enzyme activity. The enzyme is highly fixation-sensitive; fresh frozen sections are required, and fixation is generally not recommended.

Size

3*50 mL

Storage

Store at 2–8 °C, protected from light. Shelf life: 6 months.
