CREATIVE BIOMART®
Assay Kit

Hepatitis B Virus Stain Kit (Shikata's Method)

Product Information

Product Overview

This method selectively stains hepatitis B surface antigen (HBsAg) through binding to disulfide bonds within the antigen.
HBsAg-positive material appears brown to dark brown, while nuclei remain unstained. Lipofuscin may also appear dark brown.

Size

3*50 mL

Storage

Store at 2–8 °C, protected from light. Shelf life: 6 months.
