CREATIVE BIOMART®
Assay Kit

# Lipofuscin Stain Kit (Long Ziehl-Neelsen Method)

## Product Information

### Product Overview

Lipofuscin is a brown-yellow granular pigment derived from oxidized lipids and lipoproteins. It is commonly found in liver, kidney, myocardium, adrenal glands, and neurons, typically localized around the nucleus.
This kit contains fuchsin and methylene blue solutions, staining lipofuscin and waxy substances brown-black, with a light red-purple or light blue background.

### Size

4*50 mL

### Storage

Store at room temperature, protected from light. Shelf life: 6 months.
