CREATIVE BIOMART®
Assay Kit

Liu Stain Kit

Product Information

Product Overview

Liu's stain is a rapid staining method modified from Wright staining and based on Romanowsky principles. It consists of Liu's A (acidic dyes such as eosin) and Liu's B (basic dyes such as methylene blue).
Staining can be completed within 2 minutes and is suitable for blood smears, bone marrow smears, vaginal secretions, and exfoliative cytology, with results comparable to Wright and Diff-Quik stains.

Size

3*100 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
