CREATIVE BIOMART®
Assay Kit

Live/Dead Bacteria Staining Kit

Product Information

Product Overview

The Live/Dead Bacteria Staining Kit allows rapid differentiation of viable and non-viable bacteria based on membrane integrity. Live bacteria fluoresce green, while bacteria with compromised membranes fluoresce red, enabling straightforward assessment by fluorescence microscopy or flow cytometry. This kit is suitable for antimicrobial evaluation, biofilm studies, and bacterial viability analysis.

Size

20t

Storage

Store at -20 □, protected from light.
