CREATIVE BIOMART®
Assay Kit

Mallory's Acid Hematoxylin (PTAH) Stain Kit (Natural Oxidation)

Product Information

Product Overview

The Mallory's Acid Hematoxylin (PTAH) Stain Kit (Natural Oxidation) is used for the selective visualization of muscle striations, fibrin, and glial fibers in histological sections. Using naturally oxidized hematoxylin, this method produces distinctive blue staining of fibrin and muscle fibers with excellent structural contrast. The kit is ideal for studies of muscle pathology, connective tissue, and nervous system morphology.

Size

3*100 mL

Storage

Store at room temperature, protected from light. Shelf life: 2 years.
