CREATIVE BIOMART®
Assay Kit

Modified Gomori Trichromatic Stain Kit

Product Information

Product Overview

This method differs from Masson's trichrome and is suitable for frozen sections of fresh tissue. It is commonly used to identify mitochondrial myopathies.
Mitochondria and abnormal muscle fibers stain red, collagen and normal muscle fibers stain green, and nuclei appear purple.

Size

4*50 mL

Storage

Store at room temperature, protected from light. Shelf life: 6 months.
