CREATIVE BIOMART®
Assay Kit

Modified Oil Red O Stain Kit

Product Information

Product Overview

Oil Red O staining is used to visualize lipid degeneration and abnormal lipid deposition in tissues such as liver, kidney, and heart. The dye preferentially dissolves into neutral lipid droplets, producing orange to red staining. Ethanol-based fixatives and paraffin embedding should be avoided; frozen or resin sections are recommended.

Size

2*50 mL

Storage

Store at 2–8 °C, protected from light. Shelf life: 6 months.
