CREATIVE BIOMART®
Assay Kit

Modified Oil Red O Stain Kit, Environmental Friendly

Product Information

Product Overview

Oil Red O is an azo dye particularly suitable for lipid staining. It binds preferentially to neutral fats via solubility and physical adsorption mechanisms.
This eco-friendly modified Oil Red O staining kit uses low-volatility, odorless solvents to replace hazardous traditional solvents, significantly reducing operational risk while maintaining lipid localization and morphology. Positive lipid staining appears orange-red to red, depending on lipid type and concentration.

Size

4*50 mL

Storage

Store at room temperature, protected from light. Shelf life: 1 year.
